 grad®

*dassoXTR is an extremely durable bamboo product designed specifically for outdoor applications.*

*It is made of 87% of natural bamboo fiber and 13% Phenolic resin fused into dense and durable panels that are milled for bamboo decking, RainClad siding, porch flooring, lumber, and panels. Worldwide accepted for outdoor use, Class A Fire-rated using C NFPA and IBC Classifications tested to ASTM E-84-12 decay, and insect resistant (including resistance to termites). Tested in accordance with International Code Council (ICC) standard AC174 for exterior decking, dassoXTR has been approved as a product suitable for exterior usage.*

Visit [www.dassoXTR.com](http://www.dassoXTR.com) for more info.

## DESIGN FEATURES

Look and feel of natural Wood and not plastic. Performs like dense tropical hardwoods.

## TECHNICAL HIGHLIGHTS

Innovative design to ensure smooth and easy installations. More durable than IPE! Pre-Oiled with Woca Oil.

### 1x6+ inch Grad System Unfinished, Flush End, Convex Surface.

## GRAD Track System

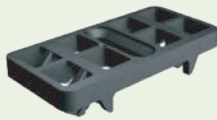

## Grad System Screws

Philip Pan Head #10 x 2". Type 316 Stainless Steel Screw (For Standard wood joist installation, screw has to penetrate studs).

## Cushion Clips

Used for gables or where you cannot use full face boards.

## BENEFITS

No Leaching, Zero-VOC, easy to transport, dimensionally stable, cuts like wood, no twist or warp.

**NO LEACHING** No preservative is sip out from the material to contaminate water source under wet environment.

**NO VOC** 3rd Party Certified Low-VOC products emit less than .005 PPM (parts per million) volatile organic compound chemicals. dassoXTR is Zero-VOC

Safe for interior usage as well, No Urea-formaldehyde or toxic chemical

No ACQ and CCA used in dassoXTR. These preservative chemical are poisonous to living organism including mammals.

Not from trees. Good alternative to wood fiber. Options to wood fiber includes bamboo, palm, and cork.
